NAVI MUMBAI

DEPARTMENT OF COMPUTER ENGINEERING

NEWS LETTER 2010- TECH GALAXY

**SCOE'S DEPARTMENT OF
COMPUTER
ENGINEERING**

Editors

Ms. Ruhi Ghormade

Ms. S. D. Kolekar

About the Department:

Computer Department of SCOE is a department, established for the purpose of imparting state of art technical education to newly aspired engineers of the 21st Century. We dream to be a leading research department with dream & vision of creating knowledgeable society. Saraswati College of Engineering's Computer Department started functioning in 2005 with full energy & enthusiasm, with the help of dynamic and qual-

ified HOD, staff members along with energetic and enthusiastic students. The growth of any worthwhile endeavor especially in the field of education depends to considerable extent on the selfless service & dedication of the people working for it. The most important feature of Computer Department, which is quite different from others is that "It is based on collective effort every common individual, working with a team spirit as a

family". Long term planning, meaningful administration & dedicated experienced & hard working staff, fully fledged Library & well equipped laboratories are few of our strong points to mention.

From the Desk of HOD:

It gives me an immense pleasure to present the News Letter- Tech Galaxy for this year. It has always been an experience of fulfillment while working under potent leaders like our Director and Principal Sir. We- the Computer Department are being an Oracle to achieve the ultimate goal of Saraswati Education Society – Footprints on global map with excellence.

Our Footprints:

- 1. 5 days Workshop on Dot Net by Nirmal Datacom:*** The workshop was intended to make students aware about the current market trends i.e. Dot Net. Students were facilitated with class room trainings along with the rigorous hands on training.

No. of Participants: 25

Coordinator: Ms. S.D. Kolekar and Mr. B. L. Mali

- 2. Advisory Board Meeting 2010:*** This was a step ahead move to make up the academics according to industry demands. Different speakers from different domains of IT industry were invited to share their views. Students quenched their doubts and got a new perspective towards "industry along with academic performance".

3. **ISTE Approved STTP on "Technical Teachers Training"**: It was a 5 days STTP program entitled- **Technical Teachers Training Vision T³** in association with Department of Electronics Engineering and Department of First Year Engineering.

No. of Participants: 50

Convener: Ms. S.D. Kolekar

Coordinator: Ms. Monali Deshmukh, Ms. Purnata Bhoir and Ms. Bhagyashree Sonawale

Upcoming Events:

1. 1-Day Seminar on .NET for students & staff.
25 Aug 2010
2. Rational Rose Training for TE students
