Editors

Mrs. Bharti Joshi

Ms. Parineeta Suman

ABOUT THE DEPARTMENT

Computer Department of SCOE is a department, established for the purpose of imparting state of art technical education to newly aspired engineers of the 21st Century. We dream to be a leading research department with dream & vision of creating knowledgeable society. Saraswati College of Engineering's Computer Department started functioning from 17th Sep. 2005 with full energy & enthusiasm, with the help of dynamic & qualified HOD & staff member& its energetic, enthusiastic students. The growth of any worthwhile endeavor especially in the field of education

depends & its energetic, enthusiastic students. The growth of any worthwhile endeavor especially in the field of education depends to considerable extent on the selfless service & dedication of the people working for it. The most important feature of Computer Department, which is quite different from others is that "It is based on collective effort every common individual, working with a team spirit as a family for the development and progress of the department, college and society". Long term planning, meaningful administration & dedicated experienced & hard working staff,

fully fledged Library & well equipped laboratories are few of our strong points to mention.

FROM THE DESK OF HOD

It gives me an immense pleasure to present the News Letter for this year . We strives hard to develop disciplined, responsible, sincere and dedicated professional with necessary skills to match academic and market needs.Our Department empowered with well qualified faculty which help the students with quality knowledge that match with global standards. Apart from Teaching and research , faculty is involved in counselling and career guidance to the student.

OUR FOOTPRINTS:

1. Seminar on CCNA (31st July,12)

A seminar on CCNA was organized on 31st July, 2012. “A clear vision directs you towards your goals”. Such seminars help the students in improvising their skills and achieving the goals. It take outs the students from their little world to this world of Technology and Science. Hence, one more enlightening way towards the wide area of networking by CCNA was a success.

2. Seminar on Advance Java(1st Aug,12)

Our department conducted a seminar on “Advance Java “in Saraswati college of

engineering for Third and Final year students of Computer Engineering.The seminar focused on using exceptions, multi-threaded programming in Java, Java's I/O system, network programming with java.net, distributed programming with Remote Method Invocation (RMI), and accessing databases with Java Database Connectivity (JDBC).

3. Seminar on How to Crack GD and PI (31st Aug ,12)

A seminar on ‘How to crack GD and PI’ was been organized on 31st Aug,12 delivered by Mr. Eddigton Roy. The speaker guided the students on the ways of preparing Curriculum Vitae (C.V.), as C.V creates maximum positive impact during interviews. The seminar also included ways on tackling the hurdles faced during college recruitment process. The knowledge shared by the speakers was been greatly appreciated by the students on behalf of their positive responses to the seminar
