

SCOE Organises Sixth Sense Robotics Workshop

Over 250 students from all various Engineering institutes attended the two day workshop

By Ashok Dhamija and Chandrashekhar Hendve

KHARGHAR: Keeping up with the ever increasing interest in advanced robotics amongst today's youth, IIT Bombay in coordination with the Department of Electronics and Telecommunication and Electronics and Telecommunication Students' Association (ETSA) organised a two day workshop on 'Sixth Sense Robotics' at Saraswati College Engineering, Kharghar.

Over 250 students from all various Engineering institutes in Mumbai and Navi Mumbai attended the same. Some of the major applications of Robotics that were showcased included Ball follower Robot, Gesture Controlled Mouse Operations and Windows Media Applications. The workshop will be followed by the zonal rounds for IIT-B's National level robotics championships at the same venue.
